

PRODUCT FEATURES

- High-end Quality and Compact, Aesthetic Design
- Custom Designed Parabolic Reflector
- · Rustproof, IP55 Water Resistant Design
- High Capacity Range

- Long Lamp Life **Expectancy**
- Gold-filtered Red Lamps
- **Compact Design with Protective Grill**
- · Universal Burning Position
- Instant Heat up to 3500°F

DGS SERIES

FILTERED SHORT-WAVE ELECTRIC INFRARED HEATER

PRODUCT SPECIFICATIONS

Electrical Consumption: 1,500 to 2,000 watts

Equivalent BTU/h: 5,118 to 6,824 BTU/h

Mounting Options:Chains or Mounting Bracket for Universal Positioning

Lamp Elements: Gold-filtered Quartz Lamps

Housing:

Bronzed Extruded Aluminum Body with Rustproof Body Parts and Protective Grill

Certifications & Approvals:

CE Certified, Indoor & Outdoor Commercial, Outdoor Residential, IP55 Water Resistant

Limited Warranty:

1-Year (All Components)

Electrical:

120VAC (1,500 W); **230VAC** (2,000 W)

² A minimum clearance of 36 inches must be maintained from behind another heater. Ensure that building materials with a low heat tolerance (i.e, awnings, fabrics, plastics, sprinklers, insulation, etc.) are protected against degradation. This may require the heater to be mounted at a distance in excess of the published clearances to combustibles. Contact the material manufacturer for specific details. Supplied bracket to be used for 0° mounting on 1,500 W and 2,000 W models only.

 $^{^{\}scriptscriptstyle 3}$ Refer to DGS Manual for additional information about clearances for 45° Mounting Angle.
