

## Joint Statement from Detroit Radiant Products and Alke Companies

March 3, 2025

Today, we are pleased to announce an exciting new chapter for our companies with the formation of a strategic equity partnership between Detroit Radiant Products and the Alke Companies. This collaboration brings together two respected, third-generation family businesses with a shared commitment to innovation and leadership in the infrared heating industry.

With 70 years of experience, Detroit Radiant Products is a trusted name in infrared heating, while the Alke Companies, founded in 1974, have been a global leader in manufacturing infrared heating equipment. This partnership enhances our ability to bring cutting-edge products and solutions to the market, expanding our reach and capabilities worldwide.

We are confident that this partnership will pave the way for continued growth, new opportunities, and greater innovation in the infrared heating industry. The transition will be seamless, and we look forward to working together to bring new ideas and solutions to our customers, employees, and partners.

We would also like to take this opportunity to recognize the leadership of Adri van Alphen and Derk-Jan Keurhorst, who have led Alke Companies since 1994. Their dedication has been a cornerstone of Alke's success, and we extend our heartfelt congratulations to them as they embark on new ventures. We are excited to build on the strong foundation they've established.

Thank you to all those who have supported us over the years. We look forward to a bright and innovative future together.

### Robert van Alphen
